

## MCS Accreditation Support

[www.mcsaccredited.com](http://www.mcsaccredited.com)

At Easy MCS Ltd we are committed to providing you with a simple, straightforward solution to becoming accredited under the Microgeneration Certification Scheme.

At Easy MCS Ltd we provide a complete Multi Award Winning mentoring package to ensure your company meets all the requirements of the MCS scheme. Easy MCS provide a full bespoke quality management system containing all required internal and external procedures. Upon application you will be designated an MCS Mentor who will guide you from your initial application to your final inspection.

The Department of Energy & Climate Change (DECC) are predicting a surge in demand for renewable technologies as a result of the Renewable Heat Incentive and Feed-In Tariffs, with a looming shortage of MCS approved installers. So get ahead of the demand and contact us now to start your MCS Accreditation.

We offer bespoke Multi Award Winning Microgeneration Certification Scheme (MCS Accreditation) Packages to;

- New or Existing Installers or Sales & Marketing Organisations looking to achieve MCS Accreditation
- Installers who have failed their first MCS Accreditation Inspection or have failed their yearly MCS Audit
- MCS Accredited Installers looking to expand into new MCS Certified Technologies

As the Multi Award Winning market leader in the UK for MCS Accreditation support we have unrivalled experience, work closely with all the UK MCS certification bodies and Easy MCS Ltd boasts a 100% pass rate.

Our dedicated team of MCS consultants will guide you through the MCS certification process in a swift and pain free manner, which will allow you to offer government grant funding, Feed-In Tariffs and the Renewable Heat Incentive (RHI) for MCS Accredited Technologies including; Air Source Heat Pumps, Ground Source Heat Pumps, Solar Thermal, Solar PV, Wind Turbines, Biomass, Small Scale Hydro & Micro CHP.

MCS Accreditation Support includes:

- Designated MCS mentor
- Bespoke company quality management systems
- Complete MCS support from application to inspection
- Guidance through necessary training & qualifications
- Discounts available from leading MCS Certification Bodies
- Online MCS Certification Journey Planner

“To date, installers registering with NICEIC who have had prior support from Easy MCS Ltd, have been extremely successful in passing their inspections without any significant issues.”

Danny Jones, NICEIC Environmental Technologies Manager

# Easy MCS Training Academy

[www.easymcsacademy.com](http://www.easymcsacademy.com)

At Easy MCS Ltd we offer a range of certified renewable training courses to provide you with the skills & qualifications you need to achieve MCS Certification & enter the renewable industry.

At Easy MCS Ltd we offer MCS Recognised Renewable training as part of your journey into the renewable industry and achieving MCS Certification. All our renewable qualifications have been successfully mapped against the Building Services Engineering National Occupational Standard (NOS) and the Qualifications and Credit Framework units (QCF).

We offer a variety of certified courses on technologies including Solar PV, Solar Thermal & Heat Pumps along with additional relevant qualifications such as 17th Edition & Working at Heights. Each course package is tailored to the installer and their progress throughout MCS.

## MCS Seminars

[www.mcsseminars.com](http://www.mcsseminars.com)

At Easy MCS Ltd we offer a range of MCS Accreditation Seminars designed to increase awareness and understanding of the Microgeneration Certification Scheme

Each MCS Seminar includes:

- An experienced MCS seminar presenter
- A presentation on the procedures and regulations involved in the MCS scheme
- A presentation on achieving MCS certification
- Q&A session on the pros, cons & top tips for the MCS process

We have experienced instructors and examiners to guide you through your training and ensuring you leave the Easy MCS training academy with all the skills you require to be successful in the renewable energy sector.

The Certified Renewable Training courses Easy MCS Offer include;

- Solar PV
- Solar Thermal
- Heat Pumps
- Electrical Installation Qualifications
- Plumbing Qualifications
- Health & Safety, Manual Handling, Working at Heights & COSHH
- Energy Efficiency (Part L)
- Renewable Awareness
- Underfloor Heating

**For current dates and locations or to book on one of our training courses please call us, visit our website or return our application form.**

## MCS Ongoing Support

[www.mcssupport.co.uk](http://www.mcssupport.co.uk)

At Easy MCS Ltd we are committed to ensuring you maintain your MCS Accreditation whether you are an existing MCS Accredited Installer, or a new installer seeking MCS Certification.

At Easy MCS Ltd we offer a full ongoing MCS support package.

The ongoing MCS Support package ensures that as an MCS Accredited installer, all documentation and standards are maintained and all MCS procedures are up to date.

Easy MCS Ltd ensure that maintaining your MCS Accreditation is cost and pain free, and that you are fully prepared for your annual MCS Inspection.

We offer Multi Award Winning Ongoing MCS Accreditation Support to;

- Existing MCS Installers with their annual MCS Audit approaching.
- Existing MCS Installers looking for support throughout the year to reduce time & costs

The ongoing MCS support package includes:

- A designated MCS Support Mentor
- Personal Online MCS Support Dashboard
- Regular updates to your MCS Quality Management System, to ensure it is current with all the latest MCS Standards on the technologies you are accredited for
- A remote internal review meeting with your MCS nominee each quarter
- Mentoring through your yearly audit
- Assistance on rectifying any non-conformities

Online MCS Support Dashboard contains:

- Bespoke MCS QMS kept up to date with current standards
- Record creation & storage facility
- MCS Project Management
- Direct contact with your MCS Mentor
- Exclusive discount area
- A suite of other functions

“So far all of the installation companies that have applied to Corgi MCS, after receiving support from Easy MCS Ltd, have been of the highest standard and have achieved a 100% pass rate.”

Chris Kulski, CORGI MCS Scheme Manager

## Why Does MCS Matter?

Being certified under the Microgeneration Certification Scheme demonstrates your competence to carry out an installation to your customers. In the rapidly growing renewable industry installers with MCS Certification are seen as the preferred route. This is because MCS is not only a sign of quality but is also linked to financial incentives such as the Feed in Tariffs and Renewable Heat Incentive.

The Microgeneration Certification Scheme certifies low carbon and renewable energy technology products and installers. The Microgeneration Certification Scheme provides consumers with a guarantee that the products and installers they select meet a high, third-party tested standard to be eligible to receive a grant or financial incentive.

- Feed-In Tariffs, which provides guaranteed payments to individuals, businesses and communities for small scale electricity generation. For technologies where there is an MCS standard, both the technology and the installer must be MCS certificated to be eligible
- The Renewable Heat Incentive (RHI) commenced in July 2011 with the RHI Premium Payments for Domestic Consumers. The Renewable Heat Incentive ongoing payments for Commercial started in November 2011 and is expected to start in Autumn 2012 for Domestic applications. The RHI provides cashback for Renewable Heat generation.
- The Code for Sustainable Homes (the Code), a mandatory requirement for all newly built homes to meet sustainability ratings, including ratings for energy and CO2 emissions. MCS certified technologies can be used to meet the requirements of the Code.
- Planning permission for consumers for certain renewable energy technologies has now been made a lot simpler, thanks to permitted development rights introduced in England and Scotland.

Contact our head office for further details.

## About Easy MCS Ltd

The Award Winning Easy MCS Ltd team are all experienced MCS Mentors, quality management specialists and renewable training experts, specialists in providing MCS Accreditation support services, Renewable Training Courses and expert advice to renewable installers on Air & Ground Source Heat pumps, Solar PV, Solar Thermal, Wind, Biomass, Micro CHP and Small scale Hydro.
